

2013 Pinot Noir Gap's Crown Vineyard - Sonoma Coast

THE VINEYARD

Gap's Crown is situated on Roberts Road just above the Sangiacomo Vineyard. This is a high-end, hillside vineyard that is gaining acclaim. In 2013, our fruit came from three distinct blocks within this vineyard. The 828 block was planted in 2002 on 110R rootstock at 800 feet elevation. The 115 block was planted in 2005 on 3309 rootstock at 1200 feet in extremely rocky soil. Both of these blocks have pure western exposure and benefit from the cool micro-climate of this site, as well as the natural stress created by the severity of the terrain in which our two blocks are located. The 667 block has a northwest exposure and produces very small berries with dark purple coloring and loads of structure.

WINEMAKER NOTES

The 2013 growing season began early with a warm and dry spring, and the weather stayed beautiful through harvest with a moderate heat wave in early September moving the grapes to optimal ripeness. We picked all of our Pinot noir in September for the first time. Dry weather in both winter and spring resulted in smaller berry sizes with robust tannins, detailed aromatics and high concentration levels. Gap's Crown vineyard delivers strong phenolics each vintage, with dark velvety colors, ample tannins, and great acidity. In 2013, the Gap's Crown grape skins were thick and ripe. The resulting wine is well-structured, layered, and built to age well. Clones 667 and 115 formed the base of the blend. A portion of clone 828 was fermented with stems and blended in, for an overall rate of 10% whole-cluster.
